- e-Commerce,
- Literacy drive,
- FinTech (Financial Technology) intervention in Africa,
- Cybercrime/cyber security,
- Benefits of financial technologies and doing business, and
- Sustainable Economic Growth and Development.

About the Summit

Financial Technologies (FinTech) has been around virtually as long as the financial services industry itself. But since the economic meltdown of 2008, a new breed of disruptors has displaced traditional economic providers with more efficient services.

Digital Currency emerge from FinTech and is a money balance recorded electronically on a store value card or other devices. The innovative technology is inclusive of software, platform, mobile technology, internet, etc. and is design to deliver financial services and products to customers. The application of FinTech cut across multiple business segments, including lending, advisory, investment management and payment etc.

FinTech holds boundless potentials. As new tools and technologies are challenged, financial services can be provided with greater speed, accountability, and efficiency. The benefits of FinTech to doing of business in Africa considering the digital information edge cannot be overemphasized as both startups and traditional finance companies are active for the innovative technology.

Summit Objectives

To converge or gather researchers, practitioners, professionals, financial and economic experts to a round table for a design thinking and discussion toward improving and developing a more resilient, competitive and dynamic financial system with best practices, that supports and contributes positively to the growth and development of African economy through the economic cycle, and has a core or strong and forward looking domestic financial institution that is more technology driven and ready to face the challenges of liberalization and globalization.

Why the Summit

- To review and analyze how tailored financial technologies (FinTech) could be design for the African business environment as most of the digital tools are adopted from develop economies and there features are not fully utilized with heavy cost implication,

- To analyze the Dynamics of Innovation in the field of Accounting, Finance and Technology,
- Deliberations from Eminent World Class Researchers,
- Identify and analyze real time risk decision making,
- Avenue for design thinking by experts, practitioners and professionals to improve Financial Technologies,
- To analyze responses on Regulatory Technology (RegTech), one of the area in FinTech that has gain more debts ever in the history of the new innovation,
- To understand the Role of Innovation in Skill Development in relation to Sustainable Development,
- Opportunity to Establish International Collaborations.

Highlights of the Summit

- Penal Discussion Section on Topic:
Development and Advancement of FinTech Ecosystem in Africa,
- Technical Discussion Section on Topic:
Emerging Technologies and Future of Agricultural Practice: Case of Benue Valley,

Sponsorship and Partnership Opportunities

Africa Global Finance and Account Summit (AGFAS) will bring together business leaders, decision makers and influencers from across the globe. A range of

opportunities is available for organizations, companies, and interested individuals to be part of the events.

We are always happy to hear from corporate entities and individuals who would benefit meeting and building relationships with our guests to grow their businesses.

We can offer:

- Partnership production of bespoke events,
- Speaking opportunities in plenary sessions and workshops
- Exhibition space to increase awareness and/or demonstrate work and products,
- Ample contact time during the refreshment break and lunch for relationship building,
- Pre or post event mail outs
- Co-branding across all events materials,
- Insert of organizational materials in the summit folders etc.

Connect your business with our Community, as our events are topic driven and have a specific target audience. The summit offers a unique opportunity to introduce the right people to your organization.

We are also happy to build bespoke packages to ensure your participation is tailored to you. Contact us for details regarding our sponsorship options and partnership opportunities. Also, ask us about the exceptional value we can deliver to your company or organization.
